**Start Date: 5/19/2026 6:00 PM**

**End Date: 5/19/2026 7:30 PM**

**Timezone: AKDT**

Alaska Copper Ammo Night – Homer  
?? Grace Ridge Brewing  
?? Tuesday, May 19 | ? 6-730 PM

Curious about copper ammunition? Wondering how it performs in the field—or how you can save money making the switch?

Join the Alaska Chapter of Backcountry Hunters & Anglers for Alaska Copper Ammo Night in Homer! We'll be set up at Grace Ridge Brewing with hands-on educational displays, ballistic gels, and information about Alaska's Copper Ammo Challenge Rebate Program .

This is a great chance to connect with other hunters and shooters, ask questions, and see firsthand how modern copper ammunition performs.

?? What you'll learn:

- How copper ammunition performs on impact with ballistic gel examples.
- The differences between lead and modern copper bullets
- Why many hunters are making the switch
- How Alaska's copper ammo rebate program can help offset the cost of trying it yourself

Whether you're a lifelong hunter, new shooter, or just copper-curious, stop by, grab a pint, and talk gear, ballistics, and conservation with the Alaska BHA community.

Free to attend. Bring your questions, bring a friend, and come see what copper can do.

Thanks to Grace Ridge for hosting us!
