

Grassy Creek fishing access Clean Up, Spruce Pine, NC

Start Date: 6/6/2026 9:00 AM

End Date: 6/6/2026 12:30 PM

We're partnering with NC Wildlife to remove trash and Hurricane Helene debris from a stretch of Grassy Creek in Spruce Pine. A tributary of the N. Toe River, Grassy Creek is planned for a new NCWRC public fishing access. The only thing holding them back is the unsightly and unsafe amount of trash. Bring gloves, a utility knife, maybe a pair of waders too and we'll have plenty of trash bags for you to fill up. Confidence is high that we can find a watering hole with food for when the work is done.

When: June 6th, 9am-12:30pm

Where: Carter Gap Valero, 11694 NC-226, Spruce Pine, NC 28777
